

Abstract 233

PFCLS SAVED THE DAY IN UNEXPECTED BLEEDING DURING DIABETIC RETINAL DETACHMENT SURGERY

Perez Montaña C.*

Hospital de la Luz ~ Mexico, city ~ Mexico

Introduction:

TO PRESENT A SURGICAL CASE OF A DIABETIC TRD WHERE PFCLS HELPED ME TO CONTROL AN UNEXPECTED BLEEDING AND ALLOWED ME TO RELEASE ALL THE TRACTIONS AND TO FINISH THE CASE WITHOUT COMPLICATIONS

Materials and methods:

TO PRESENT A SURGICAL CASE OF A DIABETIC TRD WHERE PFCLS HELPED ME TO CONTROL AN UNEXPECTED BLEEDING AND ALLOWED ME TO RELEASE ALL THE TRACTIONS AND TO FINISH THE CASE WITHOUT COMPLICATIONS

Results:

THE FIBROVASCULAR MEMBRANES WERE RELEASED UNDER PFCL BUBBLE BY BIMANUAL TECHNIQUE , THANKS TO THE SPECIAL PROPERTIES OF THESE LIQUIDS

Conclusions:

PFCLs are a valuable tool in VR surgery, with unique properties that make them essential in a variety of surgical steps or to resolve complications
