OPTIC PIT MACULOPATHY

Gossn G.*, Vinolo C., De Lasa A.

Hospital Italiano de Buenos Aires ~ Buenos Aires ~ Argentina

Optic Pit Maculopathy is a rare disease in children

We present the case of a girl of 9 years old with optic with maculopathy and visual acuity of count fingers. We decided to perform a vitrectomy with posterior vitreous detachment and cryopreserved amniotic membrane into the pit.

Succesfull anatomical and functional results was achieved.

The huse of human amniotic membrane is a good option in patient with extensive neuroepitleium detachment associated with optic pit.
